

TOOK NO ACTION ON HEATING CONTRACT

ALL BIDS REJECTED UNTIL
AFTER THE LIBRARY BUILDING
IS COMPLETED.

The State Board of Capitol Commissioners met again Monday to consider the bids for heating the state capitol building and state library, and adjourned without action.

The bidders were as follows: Cushing and Kramer, steam heating, \$8499; Ed Walsh, Bromell-Russell vacuum system, double pipe, \$6250; Savage and Adair, Morgan vacuum system, single pipe, \$8068.

After considerable discussion the report of Architect Curtis on the system was read. He gave the best points of view and favored the Bromell-Russell vacuum system as the easiest to run and most noiseless in operation.

Treasurer Ryan, raised the question that the bids were all above the appropriation. Controller Davis moved that the Bromell-Russell be accepted, as it was a double pipe system and the most modern of the lot; any surplus over the appropriation to be taken care of by the legislature. There was no second to the motion. He then urged that the contract be let for heating the capitol building as the law provided, with the library to be taken care of out of the library building fund.

The governor thought that as the state is growing, the next legislature should make a larger appropriation, and he moved that the whole matter be deferred until after the completion of the state library.

There was no second to the motion. Mr. Davis said if the board was unwilling to try the Russell system, he would move to adopt either of the other in order to have the capitol building heated this winter. The motion received no second, and the board adjourned.

VIRGINIA TO CELEBRATE, GARDNERVILLE ALSO

Virginia City will celebrate the Fourth in old Comstock style, the citizens at a mass meeting Saturday night having made the preliminary arrangements. Carson City will have two celebrations to choose from, that at Gardnerville, where the citizens hope to celebrate a railroad day as well, and the one at Virginia City.

TONOPAH ORE SHIPMENTS

The ore shipments via the Tonopah railroad for the week ending June 16 were as follows: Tonopah Mining Company, 915 tons; Montana, 70 tons; Tonopah Extension, 275 tons; Belmont, 410 tons; McNamara 59 tons; Nevada Alpine, 30 tons; Western Ore Purchasing Co., 40 tons.

THE ARMORY FENCE

The contract for building a fence around the new armory building was let Monday to Ed Walsh for \$1497. Work will begin at once.

Mrs. T. S. Higgins of Virginia City has received news of the serious illness of her mother and will leave for her old home in Canada Tuesday evening.

"NOT REPORTED TO ME" SAYS GRIMMON

U. S. Marshall Grimmon, arrived this morning from Reno and the eastern part of the state where he has been traveling for some time on business connected with his office.

He was asked about the complaints from Gardnerville, to the effect that whiskey is being sold to Indians at that place and that abuse of the law on this point has created a reign of terror there.

"The matter has not been reported to my office," said the marshal. "The officers at that place have full power to make arrests, and upon proper showing, a complaint and warrant will be issued in the U. S. court here. It is up to the peace officers of Douglas county and of Gardnerville, as I cannot proceed without complaints."

The new discoveries in Douglas, Esmeralda, Mono, Alpine and Ormsby counties, to the south of Carson City; the location of the Virginia & Truckee railroad company to enter that country; the great revival in business of all kinds in the region tributary to Carson City, and the lack of general information about these things have decided The Appeal to send a representative on a tour of inspection.

He will start Tuesday from this city and will correspond regularly with The Appeal, visiting each new camp and district and telling faithfully and without exaggeration what he finds there.

This is only one of the many things The Appeal wants to do for the betterment of business in this city, and the development of the country tributary to it. Watch for the articles and get the real news.

HE REJECTED PINE FRAMES

Supervising architect Curtis has forbidden the use of the window frames supplied for the new library building.

These window frames were made up by a California planing mill and are of pine instead of red wood, as called for in the specifications for the construction of the building.

The rejection of this material is the first action of the kind taken since work began on the new structure. Curtis was appointed by the board of capitol commissioners to watch the construction of the new building, and is insisting that material provided for shall be used. The lessons of the San Francisco fire have made it plain that nothing is better than red wood for frame work in buildings, and as this was provided for, red wood must be used.

THANKS TO THE PIKE BOYS

The Appeal acknowledges a gift of some of the most delicious honey ever taken from a bee hive in this state, where the best honey in the country is made. The Pike Boy's Apiary in North Carson City furnished the new honey, the first of the early crop, earlier this year in spite of the cold weather. The boys strain their honey in their own plant and the apiary is a growing and thriving concern.

THEODORE WINTERS ILL

Dr. Barry was called out to the Winters ranch Sunday evening to attend Theodore Winters, who has taken a severe cold.

The health of Washoe's old settler has been poor for some time, and his friends are hopeful of the outcome of his present illness.

Secretary Shaw complains of the non-elasticity of our currency and yet many a woman has to make a few dollars a week stretch to cover all the expenses of the family.

EXCITEMENT IN NEW SOUTHERN DISTRICTS

STAGES CROWDED WITH EX-
PERTS, INVESTORS AND PRO-
MOTERS HURRYING TO NEW
FINDS—BOOM COMING

This morning nearly a dozen men interested, or who wish to become interested, in the southern mining districts, arrived in this city.

Capt. Curtz, who lately sold his interests in the old Monitor properties stepped off the train and spent the day here. He has other fish frying and says that another big deal is about to be made up his way that will open up some of the most promising properties in that section.

Following Curtz was Joe Brown, of Bridgeport, who owns big holdings in Masonic, Sweetwater and other new districts. He says that the Golden Gate, is showing up better today than at any time since its discovery. This property is to be put on a new working basis, and should be a bullion producer, as there is ore enough in sight to warrant the expenditure of considerable cash. The ore carries gold, some of it as rich as is found in any of the camps. The other mines in which he is interested are showing their worth, and he looks for a rush to the south before many weeks.

The new strike at Wellington brought in a crew of mining men. Five of them left for the new "digging" among them A. E. Lowe, the discoverer. This find is about five miles south east from the Mountain House, on a side of the valley where no prospecting has ever been done. The find is reported sensational in value, specimens that fairly glitter with gold are taken out, while the ordinary rock from the surface gives panning that have set the mining men wild with excitement.

Two engineers from Oakland joined Mr. Lowe on his trip to the new find, and sales and deals will be made there inside of a few weeks. Al Clarke also took the trail. He owns several claims in the district that pan well and give assays that make the prospector look up a bit. Al brought in specimens last winter from his ground but only had them assayed a few days ago. The returns made him move, and he is on the ground at this time.

The stage line may be augmented to handle the crowds that are chasing up the excitement at Sweetwater, Masonic, Loope, Aurora, Wellington and Mountain House, and the western Nevada districts appear to be on the verge of a boom.

NATIONAL STILL BACKS UP

The following dispatches were exchanged between the National Insurance Company and Insurance Commissioner Davis yesterday.

To Sam F. Davis, Carson City

The National proposes and agrees to pay all proper and fair claims in full, according to its contractual obligations, and has always done so. If any other intention has been ascribed, you have been misinformed.

H. A. SMITH, Asst. Sect.

The following reply was sent:

"H. A. Smith, Asst. Sect. National.

Will you settle on basis of one hundred cents on the dollar or seventy-five. Please be explicit.

SAM DAVIS, Ins. Com."

No reply has been yet received.

AUTO TOURISTS RETURN FROM SOUTHERN CAMPS

Sen. Mills, Sen. Brougher, Geo. Cowing and Hal Lemmon returned to the city this afternoon. They have been on an auto tour of the mining camps, and visited all of them with the exception of Bullfrog. They report everything booming south, and the mines as all they have been described. The auto behaved beautifully and the trip was without serious incident. All four tourists have a lot of good stories to tell, and say they had the time of their lives.

CORNER ON SILVER DOLLARS

Silver dollars are scarce. That is to say they are scarcer than usual and an actual dearth of coins of this denomination has set in. A pair of gamblers arrived from Reno this morning to try and gather up some few hundreds of them for use in Reno but they were able only to secure a limited number, as the scarcity seems to have set in here.

THESE ARE SHORT ONES

Contractor Curtis came up from Reno this morning to attend the meeting of the board of capitol commissioners.

The weather seems to have settled at last and summer is upon us.

Gilber Briggs, has the honor to be the first man to appear with a hand full of fish poles.

Every day a procession of prospectors and outfits passes through Carson City, bound for the new districts south. If men and rigs are going in from other points as fast as through here, the southern country is bound to boom this summer.

It is reported that Capt. Menardi, deputy mineral surveyor of Nevada has tendered his resignation and will sue for libel, basing his suit on statements alleged to have been made by Duncan B. Harrison.

The strike at the Rickey-Antelope mine has been settled and the men have returned to work, with one exception, that of the man who caused the trouble. He quit and left the camp.

One of the prettiest sights of Carson City, where are many pretty sights the year round, is the snow storm of cotton that falls from several huge old cottonwood trees standing in different parts of the city.

The game between Virginia and the Capital nine resulted the same old way Sunday, victory for the Carson City team by a score of 13 to 24.

The Warren Engine Co. gave a delightful party Saturday night, the occasion being the 42nd anniversary of the foundation of the company. The Armory was well packed by some of Carson City's best people and the fire boys were all smiles in consequence.

The payroll at Bullfrog for the month of June amounted to between \$90,000 and \$100,000, this amount being for wages only and not representing the money spent by prospectors and leasers on their own work.

Charlie Thrall, well known here, will return from the Philippines, where he has been postmaster at Bacolod on the transport Sherman June 17. He will spend some days visiting relatives and will then go to Washington D. C. where he has been assigned to a desk in the postal department.

EXTENSION MAY BE OPENED JULY 1

TRAINS WILL BE RUN TO GARD-
NERVILLE CELEBRATION IF
REGULAR SERVICE IS NOT
READY.

"We hope to have the Minden line open by July 1, and if we cannot get it open at that time, we will run trains for the benefit of the people of Minden and Gardnerville who wish to celebrate the Fourth and have a railroad celebration at the same time," was the statement given to The Appeal this morning by an official of the V. & T. Railroad.

This is good news for Gardnerville and assures a most successful celebration for that place. The road will be in regular operation as soon as the track can be ballasted and necessary depots and ware houses can be finished.

Governor Sparks was an arrival this morning, and spent the day in attending to business of his office at the capitol.

MISS MARY REILLY WAS BURIED THIS AFTERNOON

The body of Miss Mary Reilly, an old resident of this city, was buried this afternoon in the Catholic cemetery. Deceased was a sister of Mrs. Epstine, and was visiting in Tonopah with Mrs. Agnews, her niece, when she died. A large number of friends paid their respects to her memory by attending the services and funeral.

MATTHEWSON BURIED

The body of Archie Matthewson, the Mono miner who died last Friday in this city, was buried Sunday evening by the Knights of Pythias. Relatives arrived on the evening train from the south.

Gardnerville shooters that came over Sunday to shoot with the Carson City team went down to defeat at the burook game Sunday. The day was ideal for trap shooting, and the contestants made some good scores.

The high gun on the Carson City team was Pete Crow, 25; high on the Gardnerville team was Lee Meyers, 23. Averages were 18.9 and 14.5.

A return match is talked of for the near future, probably Fourth of July in Gardnerville.

Al Livingston left last night for Tonopah where he will remain until Saturday. Mining and other business called him away.

AUCTION SALE

CARSON CITY, JUNE 11, 1906.

TO THE PUBLIC:

We have been called upon by our San Francisco creditors to settle our balances, on account of great need of ready cash, since the earthquake and fire.

Only one way to do this. Sell out the immense stock of the John G. Fox store.

All goods will be put on sale and closed out as rapidly as possible.

As all Carson people know, the late Mr. Fox, bought only the best of goods but he bought too many of them and we must suffer in consequence on account of the sudden demand for cash money.

We have arranged to start an auction sale of these goods Thursday, June 14 at 2:30 o'clock, (without reservation) and to hold two auctions daily until the immense stock is disposed of or we can raise enough money to satisfy the needs of our creditors in San Francisco.

You may depend upon it, everything in the store will be sold regardless of first cost.

When you come to the store, all you have to do is to pick out your article, an attendant will take it to the auctioneer, and he will knock it down to the highest bidder, yourself.

The stock consists of Diamonds, Watches, Jewellery, Solid Silver, Plated Silver, Cut Glass, Books, Stationery, Blank Books, Pictures and Picture Frames, in fact an endless variety of goods from one of the largest stationer's stocks ever carried in Nevada.

Sales will be conducted daily at 2:30 p. m. and 7:30 p. m. and a special invitation is extended to the ladies of Carson to attend the sessions.

Each sale, the auctioneer will hand out five handsome presents and as the sale will continue indefinitely every lady in Carson probably will draw a prize.

The auctioneer, Mr. M. German, came here from California to manage this sale and will remain here until the requisite amount has been raised.

Watch the Daily Papers for further announcements.

M. W. WIARD
